The alien Vixx'r have occupied the Reaches for the past six years, and former Navy Captain Robert Kincaid has had his fill of oppression at the claws of the lizard-like beings. Although wealthy by any standard, Kincaid is stripped of his station and imprisoned for speaking out against the alien Vixx'r race. But once free, his real plan emerges. He takes on a secret mission for the government of Earth, designed to harass and torment the alien occupiers under the guise of piracy. He'll take the fight to them, and no power in the universe can stop the depredations of the infamous Captain Malicious. But the greatest danger of all looms on the horizon for the planet Ione, all but forgotten by faraway Earth, and this new threat could be the death knell for the hope of freedom in the Reaches. On the eve of triumph could come disaster: galactic peace! This new space opera adventure is the collaboration between authors T.R. Harris and George Wier and is full of non-stop action, political intrigue, huge space battles, street-wise humor, larger-than-life heroes and a mad rush to stop impending disaster. Bottom line: This book has it all.
