Like first times? Forbidden fruit? Yes, please.

Love a hot, dominant alpha claiming what's his? f...heck, yeah. Want to watch him fall hard for the sweetest fantasy he didn't know he needed? Me too! I'm Brill Harper and I love happily ever afters, smokin' hot bad boys, and quirky, often nerdy, heroines that I'd love to be friends with off page. These ladies are not perfect--but they're perfect for one man--and he's always sexy AF. Seriously--these heroes only have one weakness, and it's sticky, sweet love. They don't let anything stand in the way of taking what belongs to them.

When it comes to the woman they love, it's hard...um...men, dirty talk, and soft, mushy heart feels. *Brill is a sooper sekrit penname for a better known author who just can't handle all the dirty. She can't handle it...but can you? Bounced: The bouncer and the actuary Nailed: The carpenter and the Jeopardy! nerd Drilled: The oil rigger and the kindergarten teacher
