The puzzles in this book focus on the 200 kanji that are taught in the third year of compulsory education in Japan.

The aim of the puzzles is to improve kanji recognition and writing skills. Unlike most other text-book exercises, however, Kanji-Kan puzzles can be seriously addictive. Kanji-Kan are not complicated to do and everyone who has completed a Sudoku puzzle should feel instantly at home. Each puzzle is based on a 9 x 9 grid. Some of the cells in each grid are already completed and all you have to do is identify the missing characters and fill in the empty cells. The rules are simple: - A kanji can be used only once in each row. - A kanji can be used only once in each column. - A kanji can be used only once in each small 3 x 3 block.
