Greetings! You are cordially invited to the official Garden Party Gala! Here the Lady Fingers are divine and the guests are doomed. Beverly Parks holds a certain reputation in the Depoe Bay High Society and has decided that it's time to "pomp" her "circumstance". Among the Brie Wheels and the Bruschetta lurks an assassin eating Gumbo and sipping Mint Juleps.

Gerard Willis and Burton Copeland are headstrong competitors. Both are CEO's of Fortune 500 companies "dying" to sign on the dotted line for the same military contract. Also on the guest list is Callie Dell, the receptionist for WDFX, where gossip is rampant and the grudges run deep. Surviving on her pay is becoming harder and harder these days, but is it enough to be a motive for murder? The romance is spicy and the heat is on to find the killer. Suspects are being questioned, but will the truth be told before they all turn up dead?
