The most important thing in Candace Hillyer's life was her career as a marine biologist. Although she lived in California, she had no time for the frivolities of the world of films. Yet here she was, working on a film on Sardinia - and engaged to the director, Anthony Belmont! True, it was only a pretence engagement, but to her consternation, Candace realised that day by day she was falling in love with Anthony. Yet was that such a bad thing? For it might have worked - until she realised just what Anthony was up to....
