Young and adventurous backpacker Kurt Smith has been naughty during his winter vacation in the Swiss Alps. After fooling around with the local hunks, Kurt has been captured by the winter beast Krampus: a monster known for literally spanking; among other things; the bad out of you. Warning! Over 4,000 rough, explicit descriptions of sexual encounters between adult, gay men and a graphic encounter between a man and a dominant beast known as Krampus. This story also contains references to bareback encounters, golden showers, bondage, sodomy, and tentacle erotica. From the story "A Naughty Boy for Krampus:" "Krampus' huge cock was hard like a metal sword.

"It will cut me in half." Kurt thought as Krampus grabbed his hair and threw him down to the floor. Krampus pulled Kurt to his knee level; the beast opened his legs to reveal a massive, throbbing cock ready to play rough. Kurt had never seen anything like it before. A rod as big as his forearm. Kurt knew exactly what Krampus wanted. He had to be a good boy."
