I slapped him, angry tears breaking free. Then I asked, "Wait, you had a crush on me?" My mom remarried when I was very young, and along with a new stepfather I gained a brother who seemed to make it his life's work to torment me. David wasn't so much the pigtail pulling type as the blackmailing and violent outbursts type, and even 15 years later I haven't forgiven my childhood bully. Fortunately, it's a lot easier to avoid him now... except when he shows up on my doorstep unexpectedly, the arm candy of my roommate for a dinner party we're throwing. It's all I can do to be in the same room with him, flashbacks from my childhood driving me to the wine bottle in the kitchen, but when we sit down to dinner the seating arrangements conspire to put him next to me and I'm at his mercy once again. This time, though, he's grown, a successful lawyer in a tailored suit and almost unbearably handsome, and new feelings about my stepbrother are beginning to stir in me. This standalone one-handed read is 4,500 words of taboo, panty-soaking sex with a sweet HEA at the end. Intended for readers 18 and over.
