Scarlet has been seeing Jacob, the first Rage Brother to tame her. But with a sport injury threatening him, she finds herself in a predicament she never saw coming. Will the other two Rage Brothers pick up where Jacob left off? Will Scarlet find herself loving her newfound explorations? All the “Scarlet and the Rage Brothers” books are completely standalone stories with no cliffhangers. "Scarlet and the Rage Brothers" are short and sassy stories with a sweet woman who meets, one by one, each of the three Rage triplets and realizes that her heart is big enough to love all three. They contain insta-love with over the top, panty-melting scenes with HEA's.
