Up the stairs. Down the stairs. Through the laundry. Chew the laundry.

No time for nighty night, sleepy sleeps. Time to hide. Over 15 million readers have fallen in love with a comic strip about a toddler named Sophie and her little spunky dog, Doug. In this, their first full-length book adventure, Sophie and Doug wear themselves out trying everything to avoid going to sleep. Funny, charming, and, as any parent of a toddler can tell you, all too true, Anderson's first book will put a smile into any bedtime routine.
