Chance Bane wakes up with no memories of who he is and soon finds out he's been engineered to become a demon hunter. On his first mission with Demonspawn Academy, he's tasked with charting a topography of Hell, assuming he can find an entrance to Hell first. He's assigned to fellow demon hunter Riley Than, and when his emotions are super charged from demon hunting on their first mission, Chance experiences feelings he didn't know he had. How will Chance deal with his burgeoning sexuality, while dealing with his memory loss, while trying to figure out how to become the best demon hunter he can be?
