The horrific murder of a local woman rocks Morristown, Mississippi. With her death, veteran police chief Eli Gallagher feels he's failed his small town, despite trying his best to serve and protect everyone in his jurisdiction.

Sometimes that's harder than it looks, given that rich and poor don't always get along, and life on the other side of the tracks can turn deadly. By his side is conscientious young Deputy Stan Leach. Together they work to discover the killer. But as they uncover evidence, their personal lives begin to unravel. Eli's long-distance boyfriend telephones saying he's getting married to a woman. Stan learns that the man he helped shelter wants to move on. When the clues unveil a history of abuse, the two men pull together to bring the murdered woman justice and maybe find the answers to the other questions in their lives.
