Long and hard work have paid off for forester Quentin in securing his dream career deep within the remote woods of Alaska. His success came with a price though – he's labored agonizingly to conceal his secret, that he was born female. Despite his fear of the men's reactions, he chose to pursue his dreams while tucking away his troubled past. When he meets the handsome, hairy and muscular Lance things change as Quentin finds himself thousands of miles from anyone he knows and a burning attraction to the only 'out' gay man around. Will he risk it all for a night of sensuality or be doomed to hide who he truly is?
